ABC Names Mark Van Dyken As Atlantic Division General Manager

Mark Van Dyken

Charlotte, NC - [American Buildings Company](#) (ABC) announces that Mark Van Dyken has been appointed General Manager of ABC – Atlantic Division. He brings more than 25 years of experience to this position, most recently serving as General Manager within another division of Nucor.

"During my time in the metal building industry, I have understood how important it is to take care of our customers. Without them, we have no reason to be here." said Van Dyken. "With the complications and complexity of construction, our team will strive to be a reliable supplier to the field."

Van Dyken started his career in drafting, and then moved to the commercial side of the metal building business. He has held various leadership positions over the years, including those within Nucor.

"We are excited about having Mark Van Dyken join the ABC team," said Jeff Carmean, President of Nucor Buildings Group. "Mark brings with him a great amount of leadership experience and knowledge about the metal building business."

About American Buildings Company

For more than 65 years American Buildings Company has been pioneering the design, manufacture and delivery of metal buildings and roofing systems that set the industry standard. From industrial and commercial structures to tailored projects for the automotive, retail and transportation industries, the ABC family of more than 850 authorized Builders has the expertise to exceed expectations for custom engineered metal building projects in a variety of industry segments. ABC delivers a proven combination of products, technology, and customer service to accurately execute projects on time and on budget through four strategically-located engineering and manufacturing facilities. Locations include Eufaula, Ala., Carson City, Nev., El Paso, Ill., and LaCrosse, Va. For more information on American Buildings Company, visit their website at www.americanbuildings.com.
