

CUSTOM METAL BUILDING SYSTEMS  
**WAREHOUSE+DISTRIBUTION**

## **With over 75 years of experience, American Buildings understands the special needs and requirements of warehouse facilities.**

American Buildings understands the diverse needs of the modern warehouse and logistics industry. Whether you need 1,000,000 sf or 10,000 sf, from heated or unheated, to refrigerated or a strictly climate-controlled warehouse, the configuration and expansion capabilities of our custom metal buildings are endless, making them the perfect solution for your new facility. Our systems also utilize green building materials to help lower total operational costs, while other features or specialty equipment can be incorporated into your custom metal building design to increase safety and performance.

### **Powerful Relationships. Powerful Results.**

The American Buildings brand is part of Nucor Corporation — North America's largest and most diversified provider of steel and steel products. Their integrated infrastructure gives us direct and reliable access to steel. As a result, we can provide our customers with single-source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

### **Nationwide Authorized Builder Network**

With a coast-to-coast Authorized Builder network, there is likely an experienced American Builder in your local area to partner with on your custom metal building solution. Whether you're a private company, corporation, or government agency — our network of over 1000 Authorized Builders can assist with your project needs.

### **Innovative, Cutting Edge Technology**

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their building needs. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

### **Superior Product Systems**

American Buildings has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, our R-Boost insulation system, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

### **Technical 3D BIM Design Strength**

Each American building system is custom designed from the ground up utilizing Tekla BIM 3D software. You will have a digital prototype that incorporates all aspects of your building, from framing to components such as electrical, plumbing and HVAC — which facilitates coordination and cooperation between all principal trade contractors on your project. This allows issues to be addressed early in the process before your building is manufactured — saving you time and money, and bringing your building to life faster and more efficiently than ever before.

**Metal building construction is quick and efficient when compared to conventional construction, saving time and money on the job site.**

The affordability, design flexibility and energy efficiency of metal building systems make them an appealing solution for warehouse facilities.

# WAREHOUSE

**American's metal buildings provide versatile building solutions**

- Fulfillment Centers
- Pharmaceutical Storage
- Food Distribution Centers
- Automotive Parts Distributors
- Furniture Showrooms
- Logistics Centers
