

AMERICAN
BUILDINGS

a **NUCOR** brand

WINDOW PROGRAM

Transform and enhance your building
with our window offerings.

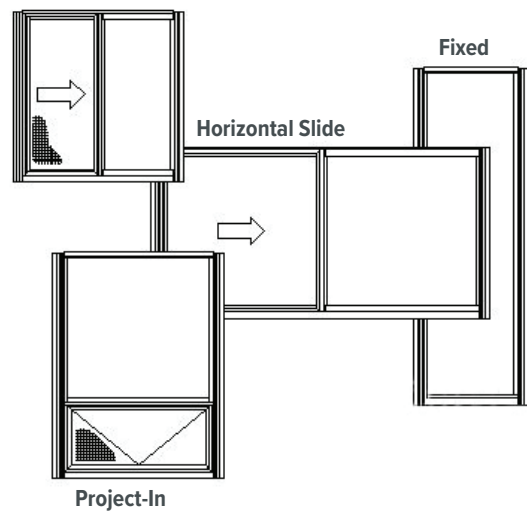

Premium Pre-Assembled Thermal

American Buildings offers the first thermal aluminum window designed specifically for the metal building industry. The thermal window features a thermal-break frame and insulated glass to provide the energy efficiencies needed for extreme temperature conditions. This thermal window is self-framing and self-flashing to simplify the installation process.

Premium Features Include:

- Thermally Broken Aluminum Frame
- Double Paned Insulated Glass
- Universal Fin for Easy Trimming
- Self-Flashing
- Self-Framing
- Powder Coated Frame (White and Bronze)
- Many Glass Options (Tinted, Low E, Tempered, etc)
- Available in Fixed, Horizontal Slide, and Project-In

Window Types Available:
