DM40 Insulated Metal Panels

ROOF SYSTEM

Standing Seam II

Located at Indiana's southernmost tip, this pet retail facility is a single slope building with a small lean-to that houses the covered dock and outdoor storage. The main structure's interior includes a large retail area, aquarium space, and a stock room.

To add curb appeal, it features an EIFS and masonry front with a parapet wall, and the remainder being surrounded with ABC's DM40 insulated metal panel. To increase efficiency and improve the shopping atmosphere, skylights and energy-efficient LED lighting were also used.

Innovation. Technology. Solutions.
